

THE PROJECT

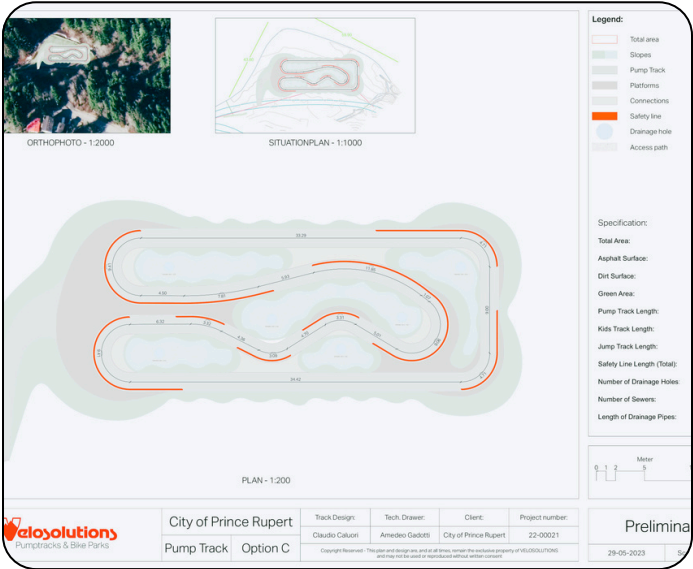

ASPHALT PUMP TRACK

— HAYS CREEK

We are building Prince Rupert's first professional asphalt pump track, designed by world-leading track builders **Velosolutions** (Claudio Caluori & Amedeo Gadotti, Project No. 22-00021).

The site sits along HaysCreek near the entrance to McIymont Trail, surveyed by McElhanney and approved by the City of Prince Rupert.

Designed for all ages and skill levels, the track will support bicycles, skateboards, scooters, and other non-motorized wheeled activities — and anchors our long-term goal of a trail network within city limits.

VELOSOLUTIONS PRELIMINARY DESIGN — OPTION C • 1:200 • 29-05-2023

PUMP TRACK LENGTH	175 m
ASPHALT SURFACE	627 m²
DRAINAGE POINTS	6 holes
SAFETY LINE	115 m total
DESIGNER	Velosolutions — Claudio Caluori
LOCATION	Hays Creek, Prince Rupert — site secured
